EDUCATION:

City College of New York, Master of Landscape Architecture
Completed Spring 2009

Hunter College of New York, Bachelor of Geography
Completed Fall 2005

EXPERIENCE:

EDESIGN DYNAMICS

12/08 - Current

Project Manager

New York, NY

Research, design, and implement ecological engineering solutions – projects range from habitat restoration to water resources planning and design. Manage all phases of design from conceptual plan creation through to construction administration. Duties also include technical report writing and research, computer rendering and modeling and visual and verbal communication with consultants, clients, stakeholders and government officials.

MARK K. MORRISON ASSOCIATES

09/08 - 11/08

Landscape Architecture Intern

New York, NY

Worked on urban landscape design projects from public school playgrounds to the large-scale MillionTreesNYC Program. Drafted landscape plans, created presentation renderings and researched applicable case studies.

STEPHEN STIMSON ASSOCIATES LANDSCAPE ARCHITECTS

06/08 - 09/08

Landscape Architecture Intern

Falmouth, MA

Summer internship with a nationally recognized landscape architecture and planning firm; drafted construction documents, built scaled landscape models, color-rendered presentation materials and created planting plans.

LANGAN ENGINEERING

06/07 - 03/08

Landscape Architecture Intern

Elmwood Park, NJ

Worked with senior staff on the design of urban-scale projects including streetscapes, community greenways and parks, brownfields redevelopment and lighting designs. Researched case studies, performed site analyses and compiled and edited specs and details for construction documents.

FINDLAY LANDSCAPING, LLC

04/04 – 05/11

Landscape Designer

Clifton, NJ

Performed freelance residential design work; was responsible for project coordination including client meetings, design development, planting plans, cost estimating, construction documentation and project installation.

NYC DEPT. OF PARKS AND RECREATION

06/04 - 09/04

Analyst Intern

New York, NY

Analyzed the use of overtime and the \$675,000 annual budget for the Capital Projects Division. Also digitized maps of New York City for the GIS Systems & Analysis Team.

HUDSON RIVERKEEPER

06/02 - 09/02

Internship

Garrison, NY

Researched polluted tributaries of the Hudson River for preparation of a "watchdog" manual. Helped conduct investigations of polluted sites. Drafted FOIA letters and correspondence to NY State environmental officials.
